
Up: 609
Down: 1,260
Markers: 608
-log10 BH q (cap 50)
log2 FC (type / rest)
phenylpropanoid biosynthetic process
phenylpropanoid metabolic process
secondary metabolic process
secondary metabolite biosynthetic process
hydrolase activity, hydrolyzing O-glycosyl compounds
glycosyl compound catabolic process
GO fold enrichment
-log10 q (cap 20)
Biosynthesis of secondary metabolites
Phenylpropanoid biosynthesis
Cyanoamino acid metabolism
Phenylalanine metabolism
Amino sugar and nucleotide sugar metabolism
MAPK signaling pathway - plant
KEGG fold enrichment
-log10 q (cap 20)
